

Purposeful Preparation for Phase 3

June 12, 2019 – Skokie Holiday Inn

Seminar Overview:

This seminar will provide participants with the knowledge and skills to implement Phase 3 of the New Requirements of Participation for Skilled Nursing Facilities. Since the fall of 2016, providers have worked tirelessly to make the changes necessary to comply with CMS Requirements of Participation (RoP) implemented in Phase 1 and 2. Those changes, coupled with a new survey process, have created significant challenges for providers across the country.

How well is your facility doing? Are you ready for Phase 3? This program will provide the knowledge and skills necessary to gear up for the changes coming in Phase 3. Topics for discussion include an overview of Phase 3 revisions, the new survey process, care planning, quality of care, principles of trauma informed care, nursing competencies, change of condition, cultural competency, behavioral health services, QAPI, compliance and ethics, resident call system, training requirements, and more.

Join us for this program and get the tools and resources needed to be successful under these new regulations.

Seminar Objectives:

As a result of this session, participants will be able to:

1. Identify the required elements of Phase 3
2. Understand the new requirements for trauma informed care
3. Analyze how change of condition and cultural competency can improve resident care and decrease re-hospitalization
4. Describe the new training requirements under Phase 3

Seminar Agenda:

8:30 AM	Registration
