

Advanced Topics in Alzheimer's Care

Eight New Alzheimer's Training Modules for Subpart U A Two Day Train-the-Trainer Course

Seminar Purpose

IDPH Subpart U regulations covering Alzheimer's Special Care Units or Centers require that, "Nurses, CNAs, and social services and activities staff who work on the unit at least 50 percent of the time they work at the facility shall attend at least **12 hours on continuing education every year**, specifically related to serving residents with Alzheimer's disease and other dementia."

The Alzheimer's Association – Greater Illinois Chapter has developed a creative and engaging new train-the-trainer program to help facilities comply with the continuing education requirements for Subpart U. This program consists of **eight new one-hour modules** that can be used as in-services for direct care staff. This seminar will instruct your staff trainers how to effectively deliver content on these topics:

1. **Person Centered Care**
2. **Communicating through Music**
3. **Bathing**
4. **Intimacy and Sexuality**
5. **Reducing Resistive Behavior**
6. **Preventing Falls**
7. **End of Life Care**
8. **Spirituality**

Seminar participants will receive a scripted training manual, PowerPoint slides and staff handouts. This new and innovative staff-training program uses case studies, games, role playing, group exercises and other unique training methods to make its Alzheimer's concepts come alive through fun and enlightening training experiences.

The speakers for this seminar, both representing the Professional Training Institute of the Alzheimer's Association, Greater Illinois Chapter, will be **Susan Rothas, BSN, RN**, Senior Manager and **Daniel Kuhn, MSW, LCSW**, Director. This seminar is relevant for administrators, Alzheimer's special care unit directors, staff trainers, nurses, activity directors, social service directors, and anyone who is involved with the staff training program for an Alzheimer's special care unit or center.
